

Auricular Acupuncture Two-Day Diploma Course for Detox, Stress and Pain

Teacher Paul Robin FAcS MPCHM MCAA

Cost £290

Auricular Acupuncture for Detox, Stress and Pain Diploma

Admission Requirements

The course is designed for therapists working in drug and alcohol rehabilitation centres and pain clinics. It is also a treatment which is complementary to anybody to a variety of therapists who wish to add this amazing simple and effective technique to assist them in their practices

Outline

The emphasis of the course is on the practical application of auricular acupuncture in alcohol and drug rehabilitation, stress management and pain relief - how to accurately locate ear points, and how to effectively needle them.

There will be an introductory theoretical lecture which covers basic TCM and acupuncture theory, anatomy of the ear, general concept of auricular therapy, health and safety issues and precautions/contraindications for auricular acupuncture.
